

Article Overview

Tratos Group (Italy), WEINERT Industries AG (Germany), and TKH Group (Netherlands) are leading manufacturers of optical cable distribution boxes in Southern Europe.

Key Manufacturers

Tratos Group (Italy) Tratos Group, headquartered in Italy, has over 50 years of experience in cable manufacturing. They produce a wide range of fiber optic cables and distribution boxes suitable for industrial, residential, and subsea applications. Their products include specialty cables and fiber optic solutions designed for high-performance telecommunications and energy sectors, with a strong focus on research, development, and sustainability . **WEINERT Industries AG (Germany)** Although based in Germany, WEINERT Industries AG serves Southern Europe with a comprehensive portfolio of fiber optic systems. They offer splice boxes, fiber bundles, and assemblies, including singlemode, multimode, and radiation-hard fibers. Their vertically integrated production allows for customization and optimization of optical distribution boxes to meet specific project requirements . **TKH Group (Netherlands)** TKH Group provides advanced connectivity solutions, including fiber optic distribution boxes, with a strong presence in Southern Europe. Their products are designed for robust network deployment, supporting both indoor and outdoor applications, and they emphasize innovation and high-quality standards .

Additional Suppliers and Options

EFB-Elektronik (Germany) EFB-Elektronik offers pre-assembled and customizable fiber splice and distribution boxes. Their products include splice cassettes, module racks, and accessories, suitable for structured IT cabling and FTTX networks. They provide technical consultation and fast delivery across Europe . **OTRANS (Global, with European distribution)** OTRANS manufactures fiber distribution boxes for 1-24 cores, including indoor and outdoor configurations. Their boxes are IP65 rated, durable, and designed for FTTX/FTTH deployment. They offer versatile mounting options for walls, poles, or cabinets, making them suitable for various network environments .

Considerations for Southern Europe

- o **Environmental Protection:** Outdoor boxes should be dustproof and waterproof (IP65 or higher) to withstand Mediterranean climates.
- o **Fiber Capacity:** Choose boxes based on the number of fiber cores required for your network.
- o **Certifications:** Look for CE marking and ISO9001 certification to ensure compliance with EU safety and quality standards.
- o **Customization:** Many manufacturers, such as Tratos and EFB-Elektronik, offer tailored solutions for specific
