

Article Overview

Several reputable manufacturers in the UAE supply trapezoidal cable trays, including Emerald Steel Industries, Unigroup, METAR, and Hutaib Electricals.

Key Manufacturers

1. Emerald Steel Industries LLC Based in Ajman, Emerald Steel Industries is a trusted manufacturer and supplier of cable trays across the UAE, Middle East, and Africa. They offer a wide range of cable trays, including ladder, trough, U-channel, and trapezoidal types, with finishes such as hot-dip galvanized, pre-galvanized, and powder-coated steel. Their products are ISO 9001 certified and widely used in oil & gas, industrial, and infrastructure projects, with engineering support for design and installation . 2. Unigroup Unigroup manufactures high-performance cable trays, including trapezoidal, perforated, ladder, and wire mesh types. Their products are engineered for commercial, industrial, and utility applications, offering corrosion and fire resistance. They provide custom solutions and comply with international load and safety standards, ensuring durability and long-term reliability . 3. METAR METAR, based in Dubai, specializes in engineered steel support systems for cable management. They produce trapezoidal, ladder, and perforated cable trays in mild steel, pre-galvanized steel, hot-dip galvanized (HDG), and powder-coated finishes. METAR supports large infrastructure and commercial projects with bulk production capacity and project-specific fabrication, ensuring compliance with load, corrosion, and structural standards . 4. Hutaib Electricals Hutaib Electricals supplies a variety of cable trays suitable for high-rise buildings, industrial plants, and infrastructure projects. Their offerings include trapezoidal, ladder, and perforated trays made from galvanized steel, aluminum, and stainless steel. They focus on fire resistance, corrosion protection, and modular designs for easy installation and maintenance, meeting Dubai's stringent construction requirements .

Considerations When Choosing a Manufacturer

- o Material and Finish: Ensure the trays are suitable for indoor, outdoor, or coastal environments (e.g., HDG or powder-coated steel).
- o Load Capacity: Select trays rated for the combined weight of all cables.
- o Compliance: Verify adherence to international standards for safety, corrosion resistance, and structural stability.
- o Customization: Some manufacturers offer project-specific sizes, thicknesses, and accessories.
- o Support Services: Engineering assistance, AutoCAD/PDMS drawings, and installation guidance can be valuable for complex projects. These manufacturers provide reliable options for sourcing trapezoidal cable trays in the UAE, catering to both standard and customized project requirements.
