

Article Overview

Fiber optic patch cord prices in the UK vary widely, typically ranging from GBP2-GBP15 per meter depending on fiber type, connector, length, and protective features.

Price Ranges and Factors

The cost of fiber optic patch cords in the UK depends on several key factors:

- o **Fiber Type:** Singlemode (OS1/OS2) cables are generally more expensive than multimode (OM1-OM4) due to higher precision and lower attenuation . OM3 and OM4 are commonly used for high-speed structured cabling, while OM5 is designed for short-distance SWDM applications .
- o **Connector Type:** LC, SC, ST, FC, E2000, and MPO/MTP connectors influence cost. High-precision connectors like MPO/MTP for 12F/24F cores require careful alignment and polishing, increasing price . Angled polish variants (LC/APC, SC/APC) also add to cost .
- o **Cable Length:** Prices increase linearly with length, with standard lengths from 0.5m to 30m commonly stocked . Custom lengths are available but may carry additional charges .
- o **Protective Features:** Armored cables, ruggedized flat twin cables, and LSZH jackets for public buildings or harsh environments increase costs due to added durability and safety features .
- o **Bulk and OEM Orders:** Ordering in bulk or through OEM channels can reduce per-unit costs, especially for standard patch cords . Suppliers like DCDI and Universal Networks offer bulk pricing and next-day delivery .

Typical UK Supplier Options

- o **FS UK:** Offers a full range of bend-insensitive fiber patch leads supporting up to 400G, with 100% end-face, IL, and RL testing .
- o **Universal Networks:** Provides singlemode and multimode cables, standard, armored, and ruggedized options, with custom lengths and tactical cables for enhanced protection .
- o **Cable Intelligence:** Stocks patch leads from 0.5m to 30m, including angled polish variants and both singlemode and multimode fibers .
- o **DCDI:** Supplies a complete range of fiber optic equipment, including bulk and trade lengths, with options for tight-buffered and armored infrastructure cables .

Summary

For UK procurement, expect standard multimode patch cords to cost around GBP2-GBP5 per meter, while singlemode or armored/LSZH cables may range from GBP5-GBP15 per meter depending on specifications. Bulk orders and supplier selection can significantly influence overall costs, and custom lengths or specialized connectors will increase the price. Engaging suppliers directly for formal quotations is recommended to obtain

UK Fiber Optic Patch Cord Supply Costs

the most accurate pricing for your project requirements .

FS offers various armored fibre patch leads that provide stronger protection of the optical fibres to support fibre optic cabling in the

We stock a huge range of Fibre Patch Leads, in all fibre types and lengths. All Fibre Leads are performance tested to ensure the

Fibre patch leads available in singlemode (OS1) and multimode (OM1, OM2, OM3 & OM4). Any length available. LC, SC, ST, FC,

We've put together a selection of the most frequently asked questions we respond to, including fibre and copper related questions

GDS supply a wide range of optical equipment from fibre patch cord, high grade fibre connectors, fibre cable Including Single mode

For quick, reliable connections, shop the range of fibre optic cables online at LINDY Electronics. 10-year guarantee and free delivery

Servicepower has manufactured Multimode and single mode fibre optic patch cords for the past 15 years. We frequently pre-install

Learn how to choose the right fiber patch cord supplier by comparing price vs. quality, certifications, and delivery

Amazon.co.uk: fibre patch cable OM4 LC to LC Fiber Patch Cable 1m/3ft, Length Options: 0.5m-100m, 40GB/100GB Duplex,

Buy fibre optic patch leads/cords in lengths ranging from 0.5m up to 30m - perfect for any sized installation. Our leads are available in

We offer a wide array of fibre patch cables (OM1, OM2, OM3, OM4 & OS2) available in all lengths and colours, terminated with all

Understand fiber patch cord pricing from a B2B perspective. Learn how OEM production, volume, customization, and

Ark Fibre Optics are Specialists in Manufacture & Supply of Custom Fibre Optic Cables and

Components

Ark Fibre Optics offers a vast range of fibre patch leads for every possible scenario from UK Made options on quick lead times to

Fibre Optic Patch Leads including OM3, OM4 and OS2 in a range of lengths. Up to 25% discount available, buy online at Cable

If you are after immediate shipping for next working day delivery, select the listed lengths which are stocked options -
