

Article Overview

Fiber optic KVM extenders in Vietnam typically range from \$1,000 to \$5,000 per unit depending on resolution, distance, and features.

Overview of Fiber KVM Extenders in Vietnam

Fiber optic KVM extenders allow remote control of computers over optical fiber, supporting video, audio, and USB signals. Popular models in Vietnam include:

- o DV-95F252 Dual Head DVI-I + Audio USB KVM Extender: Supports dual DVI/VGA displays, audio, USB devices, and uses LC/SC single-mode or multi-mode SFP fiber modules. Ideal for central control rooms and dual-head applications ().
- o AV Access 4KIP500F-KVM: Transmits 4K HDMI and USB signals up to 550 meters over multi-mode fiber with zero latency. Supports multiple transmitter-receiver pairs via a single Gigabit Ethernet switch, suitable for control centers, universities, and government offices ().

Factors Affecting Price

- o Resolution and Video Support: Extenders supporting 4K or dual-head setups are more expensive than standard HD models.
- o Transmission Distance: Longer distances (up to 550m) require higher-quality fiber modules and increase cost.
- o Fiber Type: Single-mode fiber extenders are generally more costly than multi-mode due to longer-range capabilities.
- o Additional Features: Audio support, USB virtual hubs, matrix connection, and video-wall management software add to the price.
- o Installation and Market Factors: In Vietnam, fiber optic infrastructure costs are high (around \$35,000 per km for network deployment), and limited skilled technicians can increase operational costs ().

Estimated Price Range

- o Basic dual-head or single-head KVM extenders: \$1,000-\$2,000 per unit.
- o High-end 4K or multi-device scalable extenders: \$3,000-\$5,000 per unit.
- o Prices may vary depending on supplier, import taxes, and local distribution.

Recommendations

- o Contact local distributors like ANS Vietnam or AV Access resellers for exact quotes and bulk pricing ().
- o Consider total cost including fiber modules, installation, and maintenance.

Vietnam Fiber Optic KVM Costs

o Evaluate your required resolution, distance, and number of devices to select the most cost-effective model. This overview provides a practical estimate for budgeting fiber optic KVM extenders in Vietnam while highlighting key specifications and market considerations.

Vietnam Fiber Optic Connectivity Market: Prospects, Trends Analysis, Market Size and Forecasts up to 2030 report provides a

Exports of Optical Fibers, Bundles and Cables Exports from Vietnam After four years of growth, overseas shipments

Imports by Country In 2025, China (X tons) constituted the largest supplier of optical fiber cables to Vietnam,

This report provides a comprehensive analysis of the Vietnam fiber optic cable market, covering various aspects such

Officially introduced in Vietnam in 1997, the Internet has rapidly grown. With 52% of the population as users, Vietnam has become

Compare Best Internet providers in Vietnam. View bundle prices, download speeds to find your ideal home internet and TV package.

Implementation of International Fiber Optic Cable Routes: - By 2027: + Implement and activate an additional 4 new submarine cable

When exploring the fiber optic cable manufacturing industry in Vietnam, several key factors should be considered. The regulatory

Vietnam's internet landscape has been transformed in recent years, and the country now delivers fast, affordable, and broadly

HÀ NOI - Viet Nam plans to build at least 10 new undersea cable routes by 2030, increasing the total number to 15

When exploring the Fiber Optic Telecommunications industry in Vietnam, several key considerations emerge. First, understanding

The Fiber Extender is designed to extend signals over Optical Fiber for long-distance transmission. Rextron is good at providing a

Vietnam Fiber Optic KVM Costs

High Initial Investment Costs: The initial investment required for KVM switch solutions can be a significant barrier for many

Challenges in the Vietnam fiber optic component market include high infrastructure costs, complex

Introduction: The Black Box KVXLCHF-100 Industrial KVM Extender Kit over Fiber is a premium, high-tier hardware routing solution

Vietnam has over 1 million km of fiber optic cable Broadband subscriptions (include fixed-broadband and mobile
