

Vsol and 2 5 optical module

Preview

The VSOL GPON PON SFP Module 2. 5G C++++ 9dBm is a cutting-edge optical transceiver designed to deliver high-speed data transmission and superior performance for GPON networks. Available in box/chassis models with flexible port densities for ISP and enterprise networks. Additionally, GPON OLT C+++ is an SFP. SC Connector Interface: Features standard SC connector for easy installation with V Sol ONT systems. 168 and V Sol V2802RH for high-speed fiber connectivity. Tell us your business needs, and we will find the perfect solution. 5GbE LAN port, which enables local device and network equipment to visit NAS at speed of over 1000Mbps. It complies with international standards such as ITU-T G. 987 (XG-PON), and can provide two modes of bandwidth access: 1 Asymmetric mode: upstream 2.

Explore VSOL Campus POL and FTTX solutions for all-optical networks. Compare architectures to optimize bandwidth, scalability, and efficiency for your campus.

VSOL produces PON devices, 4G/5G CPE, Wireless routers, and other series of access products to meet the needs of different scenarios in various industries.

Upgrade your network with the VSOL 2.5Gb XPON ONT V2802RH, supporting EPON/GPON, SC connectors, PPPoE/IPoE, and 802.3ah for reliable fiber optic equipment.

VSOL Layer 3 2 PON Ports EPON OLT with 2xSFP/SFP+ and 4xGE uplink ports is competitive to be deployed in small or medium-sized enterprises.

The full form of OLT is optical line terminal, which is a device used to connect the optical fiber and transfer signals. It's an important part of PON in FTTx.
