

What are some cable tray manufacturers in Grenada

Article Overview

Grenada has several suppliers and manufacturers offering cable trays, including wire mesh, ladder, and perforated types, suitable for industrial and commercial projects.

Local Manufacturers and Suppliers

- o Alfred & Alfred - This company operates in Grenada as an exporter and importer of general trading products, including aluminium ladders and scaffolding materials, which may include cable tray systems or related support structures for electrical installations . They provide a range of metal products suitable for industrial applications.
- o Grenada Enclosed Cable Trays Suppliers - A listing of 25 suppliers and manufacturers in Grenada is available through B2B marketplaces, offering customized wire mesh, cable carriers, protective baskets, and other cable management solutions . These suppliers focus on providing tailored solutions for industrial and commercial projects, including cable tray systems.

Types of Cable Trays Available

- o Wire Mesh Cable Trays - Lightweight, flexible, and suitable for complex routing of electrical cables. Often used in commercial and industrial installations.
- o Ladder Cable Trays - Designed for heavy-duty cable support, ideal for high-capacity electrical systems.
- o Perforated Cable Trays - Provide ventilation for cables and are suitable for heat-sensitive installations.
- o Materials - Common materials include stainless steel, galvanized steel, aluminium, and fiberglass composites, depending on the project requirements .

How to Source

- o B2B Marketplaces - Platforms like Europages list Grenada-based manufacturers and allow direct contact with suppliers for quotes and product specifications .
- o Local Industrial Suppliers - Companies like Alfred & Alfred can provide both standard and customized cable tray solutions, along with related accessories such as brackets, fittings, and supports .

Considerations

When selecting a manufacturer in Grenada, consider:

- o Material suitability for indoor or outdoor installations.
- o Load capacity and tray dimensions for your specific project.
- o Compliance with standards such as EN 61537 or IEC for international compatibility.
