The " AL status code " (AL: Application Layer) describes the error code of a slave device if a requested change in state cannot be executed or if a slave detects an internal error. The codes in Box 7 of your Form 1099-R indicate the type of distribution you received. In case of error, the Rexroth EtherCAT master automatically retrieves the AL status code (ESC register 0x0134:0x0135). When you receive a distribution from a retirement account, pension, annuity, or IRA, the payer issues Form 1099-R to report that distribution to both you and the IRS. These 1099-R distribution.
