

Where can I find Vietnamese mesh cable trays

Article Overview

You can find high-quality mesh cable trays in Vietnam from manufacturers like CAT VAN LOI, Quan Pham, and other specialized suppliers offering steel and stainless steel options with various finishes and sizes.

Leading Manufacturers and Suppliers

- o CAT VAN LOI CAT VAN LOI is a prominent manufacturer of wire mesh cable trays in Vietnam, producing trays that meet IEC 61537:2007 and TCVN 10688:2015 standards. Their products are widely used in large-scale projects such as Samsung and Intel factories, airports, and commercial buildings. They offer galvanized steel and stainless steel mesh trays, with high side walls for cable security and easy routing. Standard lengths are typically 3 meters, with customization available . Website: catvanloi.com
- o Quan Pham Cable Tray Quan Pham designs and manufactures basket-style wire mesh cable trays with compliance to NEMA and IEC 61537 standards. They provide multiple material options including pre-galvanized zinc, electro zinc plated, hot-dipped galvanized, powder-coated, and stainless steel. Standard mesh configuration is 50mm x 100mm with wire diameters from 4.0 to 6.0mm. They accept small orders and offer competitive pricing for both domestic and international clients . Website: quanpham.vn
- o Other Suppliers
 - o Dongkwang Vina, Butraco, Viet Power Si, Bestray, and Nam Phuong NB are reputable cable tray manufacturers in Vietnam offering perforated, ladder, and solid bottom trays, with some providing mesh tray options or custom solutions for industrial and commercial projects .
 - o Yellow Pages Vietnam lists multiple suppliers of wire mesh cable trays, providing options in carbon steel, stainless steel (304, 316), and various finishes such as hot-dip galvanized and electro-galvanized .

Material and Finish Options

- o Materials: Carbon steel, stainless steel (304, 316)
- o Finishes: Hot-dip galvanized after fabrication (HDGAF), electro-galvanized (EZ), powder-coated, or natural stainless steel protection
- o Standard Length: 3 meters
- o Wire Diameter: Typically 5.0mm, with options from 4.0 to 6.0mm
- o Mesh Size: Commonly 50mm x 100mm

Applications

Mesh cable trays are suitable for industrial, commercial, and high-load environments, including data centers, factories, airports, and high-rise buildings. They allow efficient cable routing, heat dissipation, and easy maintenance, making them ideal for complex electrical installations . For sourcing, you can contact these manufacturers directly for quotations, customization, and delivery options within Vietnam.
