

Where is the manufacturer of Huijue fusion spliced optical cable

Article Overview

Shanghai Huijue Network Communication Equipment Co., Ltd., headquartered in Shanghai, China, manufactures Huijue fusion spliced optical cables with production facilities in Jiangsu Province.

Shanghai Huijue Network Communication Equipment Co., Ltd. (Huijue) is a professional manufacturer specializing in telecom and communication products, including fusion spliced optical cables, fiber optic components, and network cabinets. The company's headquarters and R&D center are located in Shanghai, covering an area of over 10,000-18,000 square meters depending on the source . For mass production, Huijue operates a large-scale factory in Jiangsu Province, spanning 35,000-50,000 square meters, which handles metal precision production, assembly of cabinets, and optical fiber products . The company integrates R&D, production, and sales, and serves both domestic and international markets, supplying telecom operators such as China Telecom, China Unicom, and China Mobile, as well as overseas clients in the USA, Europe, Middle East, Southeast Asia, and Australia . Huijue's product line includes fusion spliced optical cables, fiber optic distribution frames, joint closures, connectors, and transceivers, and the company maintains strict quality control with certifications like ISO14001, ISO45001, CE, and RoHS . Their facilities feature multiple specialized workshops for sheet metal, patch cords, and fiber optic cable assembly, enabling customized, one-stop solutions for clients . In summary, Huijue fusion spliced optical cables are manufactured in China, with the headquarters in Shanghai and the main production base in Jiangsu Province, supported by extensive R&D and assembly capabilities for both domestic and international distribution .

Technical Leader in the ODN Field
Core Advantages: Full Industry Chain Coverage
Independently and manufactures a complete

Key Takeaways Fusion splicers are essential tools for building and maintaining high-performance fiber optic networks.

Fusion Splicing means securely connecting two optical fibers by heating their end faces and

Fusion Splicer Supplier, Optical Fiber Fusion Splicer, Splicing Machine Manufacturers/ Suppliers - Nanjing Jilong Optical

Fusion splicing of fibers is a technique of making low-loss fiber joints by fusing fiber endfaces together. It is widely used in fiber optics.

Fiber Optical Cable Supplier, Fiber Optic Connector, Fusion Splicer Manufacturers/ Suppliers - Wuhan

Where is the manufacturer of Huijue fusion spliced optical cable

Horizon Technology Co., Ltd.

AFL Fusion Splicers provide you with the precision and reliability you need to splice your fibers. We offer a

1. Company Profile Huijue Group was founded in 2002, is in the field of energy storage system in the leading technology innovation

ETK Kablo is a leading Turkish manufacturer of fiber optic cables and low-voltage communication cables, supplying high-quality

Established in 2001, Shanghai Huijue Network Communication Equipment Co., Ltd (HJ Network for short) is the leading

Meanwhile, optical fibers are also advancing, as seen with the development of optical fibers suited to fifth generation

As a leading Fiber Optic Splice Closure manufacturer and supplier, Huijue has been providing customers

Fiber Optic Fusion Splicers Fusion Splicing is a preferred way to join two fibers together by using heat. Whether the fiber was broken

We are a manufacturer of fiber optic communication equipment in Shanghai China. Founded in 2000, Shanghai Huijue Network

Telecommunication uses Fusion splicer enable splicing of Fiber Optic Cable with low loss and high

Professional manufacturer of various fusion splicers, fiber cleavers, OTDR and related fiber test equipment, as well as fiber tools.
