

Which company makes the best mesh-type stainless steel cable trays

Article Overview

Top manufacturers of mesh-type stainless steel cable trays include Marlin Steel, SILTEC, Kable Kontrol, MP Husky, US Tray, Interflex, Cablofil, EAE Electric, and Chalfant Manufacturing, each offering high-quality, durable, and customizable solutions.

Leading Manufacturers and Their Strengths

Marlin Steel specializes in precision-engineered wire mesh trays for data centers and industrial facilities. Their trays are made from 304 or 316 stainless steel, designed for high-density cable routing, superior airflow, and structural integrity. Marlin Steel emphasizes U.S.-sourced materials, ISO 9001:2015 quality certification, and custom engineering for tight spaces or unique layouts . SILTEC offers stainless steel wire mesh and basket trays for industrial, office, and food-processing environments. Their trays focus on hygiene, flexibility, and easy maintenance, with over 30 years of experience in global installations . Kable Kontrol provides 304 stainless steel mesh trays in bulk packs, suitable for high-volume installations. Their products are corrosion-resistant, NEC-approved, and designed for multi-purpose use, including network, fiber optics, and power cabling . MP Husky manufactures a wide range of cable trays, including stainless steel wire mesh and basket trays. They are known for reliability, compliance with NEMA, UL, and CSA standards, and extensive industry experience . US Tray (Atkore) produces welded mesh wire basket trays with continuous airflow, Quick Latch(TM) self-splicing bars, and NEMA/UL certification. Their trays are made-to-order and emphasize modularity and ease of installation . Interflex USA offers VIAFIL wire-mesh trays in AISI 304 and 316 stainless steel, with safety-focused designs, CEI 61537 compliance, and versatile applications for indoor and outdoor installations . Cablofil (Legrand) is recognized for global cable management solutions, including stainless steel wire mesh trays. Their systems are fast to install, modular, and suitable for industrial and data center environments . EAE Electric provides stainless steel wire mesh trays with flexible routing, easy cable exit, and compatibility with clamps and suspension systems. Their trays are designed for safety, ventilation, and reduced labor costs . Chalfant Manufacturing offers GR-Magic(R) wire mesh trays with snap-together, screwless connections, emphasizing rapid installation, durability, and industrial-grade protection for power and data cables .

Key Considerations for Choosing a Manufacturer

- o Material Quality: 304 stainless steel is standard for durability; 316 is preferred for corrosive environments.
- o Load Capacity & Size: Ensure trays support cable weight and density.
- o Customization: Ability to produce custom widths, depths, and lengths for specific layouts.
- o Compliance: Look for NEMA, UL, CSA, or ISO certifications.
- o Ease of Installation: Snap-together systems, Quick Latch(TM), and tool-free components reduce labor.
- o Airflow & Maintenance: Mesh designs improve ventilation and allow easy cable access. For

Which company makes the best mesh-type stainless steel cable trays

high-performance, long-lasting mesh-type stainless steel cable trays, Marlin Steel, SILTEC, and Kable Kontrol are excellent choices for industrial and data center applications, while MP Husky, US Tray, Interflex, Cablofil, EAE Electric, and Chalfant provide versatile, certified solutions suitable for a wide range of environments.

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost

MP Husky Manufactures the following types of Cable Tray Systems: Aluminum, Mill Galvanized Steel, Hot

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.
