

Which company offers the best prices for hot-dip galvanized cable trays

Article Overview

Hot-dip galvanized cable trays are available from manufacturers at prices ranging from \$0.40 to over \$15 per meter or piece, depending on type, size, and order quantity.

Price Ranges and Supplier Examples

- o Perforated Cable Trays: \$0.40-\$3.20 per meter, MOQ 1-100 meters, offered by suppliers like Zhonghe Steel (Tianjin) Co., Ltd. and Shandong Huayuetong International Trade Co., Ltd. (China) .
- o Ladder-Type Cable Trays: \$2.25-\$10.60 per meter, MOQ 10-100 meters, available from BXYC Co., Ltd., Jiangsu Tianzong Electric Co., Ltd., and YILI Metal Materials Limited .
- o Heavy-Duty Perforated Trays: \$10-\$15 per piece, MOQ 100 pieces, from Shanghai Besca Industrial Co., Ltd. .
- o High-End Industrial Trays: \$1,100-\$1,500 per ton, suitable for large-scale projects, offered by Shandong Sihua Economic and Trade Co., Ltd. .
- o Small Custom Orders: Some suppliers provide samples as low as \$0.10 per piece for evaluation purposes .

Factors Affecting Price

- o Tray Type: Ladder, perforated, solid-bottom, or welded trays have different costs due to material and fabrication complexity .
- o Material Thickness and Zinc Coating: Hot-dip galvanization thickness (typically 40-86 microns) and steel gauge influence durability and price .
- o Size and Load Capacity: Wider or heavy-duty trays cost more due to higher material usage and structural requirements .
- o Order Quantity: Larger orders often reduce per-unit cost; MOQs vary from 1 meter to 100 meters or more .
- o Customization: Custom perforations, bends, or covers increase cost .

Regional Supplier Insights

- o China: Largest global producer, offering competitive pricing and extensive customization options .
- o Vietnam and India: Emerging hubs with cost advantages for medium-scale projects .
- o Turkey: Suppliers like Artim Metal provide durable HDG trays for industrial and outdoor applications .
- o India: Parco Engineers offers perforated HDG trays with 86-micron zinc coating, suitable for industrial and coastal environments .

Additional Considerations

- o Standards Compliance: Ensure trays meet ISO 1461, ASTM A123, or local electrical codes for galvanization

Which company offers the best prices for hot-dip galvanized cable trays

and load capacity .

- o Durability: Hot-dip galvanized trays typically last 30-50 years with minimal maintenance, outperforming powder-coated alternatives in corrosive environments .
- o Applications: Suitable for industrial plants, data centers, commercial buildings, renewable energy projects, and outdoor infrastructure . In summary, hot-dip galvanized cable trays offer a wide price spectrum depending on type, size, and supplier. For cost-effective procurement, buyers should compare per-meter prices, MOQs, and customization options while ensuring compliance with relevant standards and project requirements.

Pre-Galvanised, Hot Dip Galvanised Cable Trays, H: 40, H50, H60, H80, H100 Cable Trays, Bendings, Accessories
