

Article Overview

Wholesale cable trays typically range from \$0.80 to over \$76 per unit, depending on material, type, and size.

Price Range and Factors

Wholesale cable tray prices vary widely based on material, type, size, and customization. Basic trays made from steel or aluminum can start as low as \$0.80 to \$1 per unit, while specialized or heavy-duty trays, including stainless steel or fiberglass, can cost up to \$76 or more per unit . Factors influencing cost include:

- o Material: Steel and aluminum are common; fiberglass and stainless steel are more expensive due to durability and fire resistance .
- o Tray Type: Ladder trays, solid-bottom trays, trough trays, and wire mesh trays each have different costs based on construction and ventilation needs .
- o Size and Load Capacity: Larger trays or those designed for heavy cable loads are priced higher.
- o Accessories and Customization: Covers, dividers, and custom dimensions increase the overall price.

Types of Cable Trays

- o Ladder Trays: Ideal for heavy-duty applications; robust and durable.
- o Solid-Bottom Trays: Provide full protection for sensitive cables.
- o Trough Trays: Offer moderate protection and ventilation.
- o Wire Mesh Trays: Lightweight, excellent for heat dissipation and flexible installations .

Sourcing Options

Wholesale cable trays can be sourced from B2B platforms such as Alibaba, Global Sources, and Qionikai, which offer factory-direct prices, low minimum order quantities, and bulk shipping options . These platforms allow buyers to compare suppliers, request quotes, and select materials suitable for industrial or commercial projects.

Summary

For bulk purchases, expect entry-level steel or aluminum trays around \$0.80-\$5 per unit, while premium or specialized trays can reach \$50-\$76 per unit. Choosing the right supplier and material is crucial for balancing cost, durability, and compliance with safety standards .
